

MEA25 Unisex Luca Scrub Top

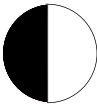

The Luca Scrub Top combines the modern fit of our ME25 Arlo Scrub Top with the high-performance benefits of NanoStretch fabric. Designed for professionals working in fast-paced environments, it delivers all-day comfort, flexibility and durability.

Built with graphene for enhanced strength, breathability and natural antimicrobial protection, NanoStretch also features a soft rayon-spandex blend for stretch and comfort, while recycled polyester offers a more sustainable uniform choice. Finished with contrast binding on the sleeve edges and a contemporary unisex fit, the Luca Scrub Top is designed to move with you throughout every shift.
