

MM25 Mens Rakaia Scrub Top

The Men's Rakaia Scrub Top features a classic V-neck with subtle contrast detailing for a modern, professional look. Designed for practicality, it includes a chest pocket and two hip pockets with concealed contrast accents, plus side splits for ease of movement.

Made from high-performance NanoStretch fabric with graphene, it offers durability, breathability, and natural antimicrobial properties to keep you comfortable and fresh during long shifts. A soft rayon-spandex blend provides stretch, while recycled polyester supports a more sustainable choice.
